News Bulletin

22-Jun-17

The Indian Green Building Council (IGBC), a part of the Confederation of Indian Industry (CII), enabling a sustainable built environment for all and facilitating India to be one of the global leaders in the sustainable built environment, awarded the '**IGBC Platinum**' rating to **The Hi-Tech Gears Ltd.** under their IGBC Green Factory Building Rating system. This rating has been given by IGBC on 05th June 2017 against the recertification application of The Hi-Tech Gears Plant-III for evaluation as per the latest standard and recertification.

The Indian Green Building Council (IGBC) has launched IGBC Green Factory Building Rating System to encourage green concepts and techniques in industrial sector. Green concepts and techniques in industrial sector helps to address national priorities like handling consumer waste, water efficiency, reduction in use of fossil fuels, energy efficiency and conserving natural resources.

Important to note that The Hi-Tech Gears adopted 'Green ECOFAC' as one of the core operational philosophy at beginning of decade and built its new benchmark and eco-friendly infrastructure Plant-III in 2011 at Bhiwadi, Rajasthan. The plant won a IGBC Gold rating in year 2012 and became the first plant in North India region to win this esteemed award. Post this recognition, two more facilities of The Hi-Tech Group won the IGBC Gold, namely The Hi-Tech Robotic Systems in 2015 and The Hi-Tech Engineering Systems in 2016.

The Hi-Tech Gears Ltd. Plant-III

"Conservation and preservation of resources have always remained the motto of The Hi-Tech Gears.

While our operations produce the precision products for the best in class green vehicles then our facilities and process must also be green", said Mr. Deep Kapuria, Chairman, The Hi-Tech Gears Ltd.

With the 'IGBC Platinum', Plant-III facility not only affirmed its sustained commitment towards environment but raised the bar within The Hi-Tech Group. "This is only possible by being committed to a vision that is not only benchmarked to highest standards of global performance but most importantly in harmony with the natural laws", said Mr. Pranav Kapuria, Managing Director, The Hi-Tech Gears Ltd.

"Environment is a serious concern point and any our actions towards preserving the Environment would benefit to our future generations," Mr. Rajesh Magoo, Business Head and COO, Transmission & Engine Component business added. He also congratulated and thanked all team members in their endeavor.

About The Hi-Tech Gears Limited

The Hi-Tech Gears Ltd. (HGL) is the flagship company of US\$ 150 million The Hi-Tech Group, partnering Global OEMs / Tier-1 customers in providing Powertrain Solutions for their global platforms.
